Accredited with 20.25 CME Hours from DOH-AD

The 2018 Multiprofessional Critical Care Review Course:

Adult (MCCRC) will provide the most comprehensive review and update of the diagnosis, monitoring and management of critically ill patients.

This intensive course includes interactive sessions using audience response technology and practice questions, answers and rationales. World-class faculty will provide the most up-to-date information in critical care across all healthcare professions.

Prepare for your initial certification or maintenance of certification examination or update your knowledge to improve the care and outcomes of your critically ill patients.

Learning Objectives

Discuss relevant clinical topics and updates to increase knowledge base in critical care

Assess the scientific foundations and literature evidence for the diagnosis, monitoring and management of patients with critical illness

Compare information among multiprofessional practitioners involved in the practice of critical care medicine

Course highlights include:

Modular course content, allowing for multiday registration to meet comprehensive or specific learning needs

Interactive sessions that utilize audience response technology and practice questions, answers and rationales

Cutting-edge topics such as: extracorporeal membrane oxygenation, choice of vasopressor in shock states, renal replacement therapy techniques, environmental injuries, emerging infections, and delirium.

Participants benefit by fulfilling CE/CME and MOC requirements. Prepare for your initial certification or recertification examination or update your knowledge to improve the care and outcomes of your critically ill patients.

Target Audience

Intensivists, Anesthesiologists, Cardiologists, Critical care fellows, Critical Care Nurses, Emergency Medicine Practitioners, Internists, Neurologists, Pulmonologists, Practice nurses, Pharmacists, Respiratory Care Practitioners and Surgeons.
