

1st Saudi Critical Care Society Conference and Scientific Meeting
SCCS 2010-Jeddah Hilton Hotel, Saudi Arabia
27th-29th April, 2010
Conference Scientific Program

Tuesday 27th April, 2010

	Track A		Track B		Track C		Track D
	Registration and Breakfast		Registration and Breakfast		Registration and Breakfast		Registration and Breakfast
7:30							
Plenary session							
8:00 A Jubran	Technologic Evaluation: ICU Monitoring as a Paradigm						
8:25 A Esteban	Evolution of Mechanical Ventilation						
8:50	Discussion						
Program							
9:00 K Reinhart	Hemodynamic Management Volume replacement in critically ill patients (crystalloids, artificial colloid)	Saudi Critical Care Trial Group TBA		N Ferguson	Mechanical Ventilation -I- Extubation failure vs extubation delay in brain injured patient	F Leclerc	Hemodynamic Management Hemodynamic monitoring in PICU
9:20 J Alhashemi	Central venous oxygen saturation ScVO ₂ ; not just for sepsis	TBA		A Esteban	How to ventilate obese patients, is it really different?	M Elbarbary	Cardiopulmonary interaction
9:40 D Cooper	Albumin resuscitation in TBI (Traumatic Brain Injury)	TBA		N Ferguson	APRV friend of foe?	A Abu-Taleb	Update on management of sepsis
10:00	Discussion	TBA		C Gomersall	Dysynchrony/NAVA	N Kissoon	Are we doing well in treating sepsis
10:20 Coffee Break	GI and Liver Diseases in ICU	Discussion		A Jubran	Invasive mechanical ventilation of the COPD patients		Discussion
10:40 H Al-Dorzi	Intra-abdominal pressure in cirrhosis	Coffee Break	Venothromboembolic diseases VTE		Discussion	Coffee Break	Cardiac Disease in PICU
11:00 Y Mandourah	MARS	F Hameed	SAVTE	Coffee Break	Mechanical Ventilation -II-	H Mukhtar	Pulmonary hypertension in PICU
11:20 Y Arabi	Hydrocortisone in cirrhotic patients	H Lababidi	Current trends of DVT prophylaxis	A Jubran	Psychological aspect of weaning	S Farooq	Care of post-op cardiac surgery patients
11:40 Joannee-Boyau	Liver support in ICU	H Al-Dorzi	VTE study	N Ferguson	Tracheostomy; when and in whom?		TBA
12:00 R Ashley	ELAD the bridge of failing liver to recovery or transplantation	F Hameed	TBA	A Esteban	The lungs in ARDS: Culprit or Victim		TBA
12:20	Discussion	Discussion	Discussion		Discussion		Discussion
12:40 Lunch and Prayer		Lunch and Prayer		Lunch and Prayer		Lunch and Prayer	
11:30 Sponsored workshops (Please refer to workshops program for further details)							
Plenary session							
13:00 T Stewart	An update on lung protective ventilation						
13:25 N Ferguson	Mechanical Ventilation of Severe Asthma						
13:50	Discussion						
Program							
14:00 F Shaheen	Organ donation and transplantation Organ donation in Saudi Arabia	S Al-Qahtani	Critical Care Rapid Response Team CCRT: Literature review	K Sririam	Nutrition -I- Strategies to increase tolerance to enteral feeding in ICU patients	F Thabet	Update on Neurosciences Traumatic Brain Injury
14:20 M Baldissieri	Management of potential organ donor	M Hijazi	CCRT: KFSH-Riyadh experience	S Alqarni	Impact of feeding protocol on ICU outcome	M Kabbani	Hypothermia in post cardiac arrest
14:40 F Shaheen	Challenges to organ donation in Saudi Arabia	A Al-Qahtani	CCRT: KAMC-Riyadh Experience	K Sririam	Micronutrient supplementation in critically ill patients	M Pollack	Brain death
15:00	Discussion	A Alaamery	Developing improvement project from theory to practice	O Tabara	TPN in critically ill patients	W Abuali	Acute neuromuscular disease in PICU
15:20 Coffee Break	Neurosciences Critical Care		Discussion	K Sririam	Team building for nutritional support		Discussion
15:40 J Varon	Selective brain hypothermia	Coffee Break	Evidence Based Medicine		Discussion	Coffee Break	Metabolic Disease in PICU
16:00 M Halawani	Update on the management of Spinal Cord Injury	M Elbarbary	Evidence based decision making in difficult trade off in ICU	Coffee Break	Nutrition -II-	M Chehab	Hepatic encephalopathy
16:20 E Al-Thunayan	Predictor of poor outcome after cardiac arrest	M Hijazi	Innovative strategies for evidence based teaching in ICU environment	K Sririam	Complications of enteral feeding	S Mohaimeed	Blood sugar control in sepsis
16:40 A Al-Harthi	Continuous EEG monitoring in ICU: challenges and opportunity	M Elbarbary	Critical care guidelines: development, adoption or adaptation?	A Abdel Razek	Combined enteral and parenteral nutrition	O Alhijazi	Diabetic ketoacidosis DKA
17:00 E Al-Thunayan	Subarachnoid hemorrhage update	Y Arabi	Evidence based therapy in thromboembolism	K Sririam	Complications of parenteral feeding	M Mohan	Dysnatremia in PICU
17:20	Discussion		Discussion		Discussion		Discussion
						Closure	
Pros and Cons session	24/7 in-house intensivists coverage	Round Table Discussion		Meet the Expert - Intimate and Interactive	Intimate and Interactive		
17:30 Y Arabi	Pro	17:30 F Bafaqeeh	H1N1 infection in Saudi Arabia	17:30 Azzam	Critical Care Response Team CCRT: implementation and nursing aspect		
17:45 Y Mandourah	Con	17:45 M Bahzad	H1N1 infection in Kuwait	18:30	Discussion		
18:00	Questions	18:00 N Shirawi	H1N1 infection in Bahrain	Closure			
18:10 Closure		18:15 M Albahrani	H1N1 infection in Oman				
		18:30	Questions				
		Closure				Closure	

Wednesday 28th April, 2010

	Track A		Track B		Track C		Track D
	Registration and Breakfast		Registration and Breakfast		Registration and Breakfast		Registration and Breakfast
7:30							
Plenary session							
8:00 J Varon	Cardiopulmonary Resuscitation CPR: Past, Present and Future						
8:25 M Baldissieri	Fever in the ICU						
8:50	Discussion						
Program							
9:00 M Alsalamah	Ultrasound in the ICU (Endorsed by Winfocus group-Riyadh) Ultrasound in ACLS	H Alsum	Critical Illness and Pregnancy Risk factors for obstetrics admission to the ICU	A Esteban	Mechanical Ventilation -III- The prediction and Prevention of the weaning failure: myth or reality?	S Al-Yousef	Respiratory Diseases in PICU Update on ARDS in children
9:20 S Al-Hamid	Lung ultrasound in ICU	M Baldissieri	Hemodynamic assessment in pregnant and peripartum patient	N Ferguson	High PEEP vs Low PEEP in ALI/ARDS, which is best?	R Mosali	Surfactant therapy for acute respiratory failure in children
9:40 M Alsalamah	Bedside DVT/PE screening in the ICU	H Abuzaid	Obstetrics in ICU	T Stewart	HFOV: current status and future trends	A Al-Eyadhy	Non-invasive ventilation; where does it fit in the equation
10:00	Discussion	M Baldissieri	Amniotic Emboli	E Jimenez	Pathophysiological basis of the open lung strategy in ARDS	F Leclerc	Use of CPAP in bronchiolitis
10:20 Coffee Break	Infection Control in the ICU		Discussion		Discussion		Discussion
10:40 Z Memish	Infection control in the ICU	Coffee Break	Burn and Electrical Injury		Discussion	Coffee Break	Challenges in PICU
11:00 W Mahmoud	Emerging multidrug resistance organism in ICU: the enemies from within	M Al Azzawi	Initial evaluation and management of burn patient	Coffee Break	Cardiac Disorders in the ICU	A Alsharif	Ventilator associated pneumonia (VAP)
11:20 S Baharoon	TB prevention in the ICU	A Alshimemeri	Lighting injury	J Varon	The diagnosis and treatment of hypertensive crisis	M Mohan	Rational use of ATB
11:40 Z Memish	Hand hygiene	S Al-Qahtani	Electrocution	S Al-Hamid	Echocardiogram during resuscitation	O Kattih	Line infection in PICU
12:00	TBA	M Al Azzawi	Factors affecting fluid resuscitation in burn patient	J Varon	Cardiopulmonary resuscitation CPR: past, present and future	A Mardini	Polytrauma in PICU
12:20	Discussion		Discussion	A Khoury	Cardiac arrest: 2010 update		Discussion
12:40 Lunch and Prayer		Lunch and Prayer		Lunch and Prayer		Lunch and Prayer	
11:30 Sponsored workshops (Please refer to workshops program for further details)							
Plenary session							
13:00 D Cooper	High volume hemofiltration - the renal RCT result						
13:25 K Reinhart	New aspect in the diagnosis of sepsis						
13:50	Discussion						
Program							
14:00 T Stewart	Critical Care Management Creating critical care system: the Ontario system and impact of it	K Maghrabi	Challenges in the ICU Challenging patient with malignancy in the ICU	W Al-Yafi	More than routine ICU Care Glutamine: an immune enhancer	H Bafagih	Challenges of the Lung and Heart in PICU Difficult airway management
14:20 Y Mandourah	Critical care support during Hajj	M Alfifi	Management of severe asthma in the ICU	S Al-Hosaini	Hyperbaric Oxygen	F Leclerc	Weaning from mechanical ventilator
14:40 H Abuzaid	Development of critical care in Africa	W Mahmoud	AIDS patient in the ICU	J Zanni	Rehabilitation in the ICU: Where are we now and where do we need?	F Aljofan	VLU
15:00	Discussion	E Althunayan	Status epilepticus in the ICU		Discussion	R Elbaheri	Management of heart failure

**1st Saudi Critical Care Society Conference and Scientific Meeting
SCCS 2010-Jeddah Hilton Hotel, Saudi Arabia
27th-29th April, 2010**

Conference Scientific Program

Track A		Track B		Track C		Track D	
15:20 Coffee Break	Trauma		Discussion	Coffee Break	Abstracts Oral Presentations (15 mins each followed by 5 min for questions)		Discussion
15:40 D Cooper	Decompressive Craniotomy DECARA study	Coffee Break	New Usage of Old Modalities in the ICU		TBA	Coffee Break	Quality Control -I-
16:00 I Swaiss	Muscle relaxants in the ICU	K Shukri	ICU performance: role of balance scorecard		TBA	N Kissoon	Quality assurance and risk factors
16:20 D Cooper	How I manage traumatic brain injured patient	M Albahrani	Role of Echocardiography in the ICU		TBA	N Kathlan	Utilization of audit in PICU
16:40 I Swaiss	Chronic illness polyneuropathy	A Khoury	Acute setting and indications of NIV in dyspnea		TBA	M Naeem	Organization and challenges in PICU
17:00	TBA	K Shukri	Critical tool in Neuro-ICU		TBA	N Kissoon	Care of critically ill child from presentation to discharge
17:20	Discussion		Discussion		TBA		Discussion
Pro and Cons session	Can patients or their families have the right to insist on any treatment	Round Table Discussion		Meet the Expert - Intimate and Interactive			
17:30 E Al-Thomali	Pro	17:30 J Varon	Therapeutic hypothermia: past, present, and future	17:30 O Tabara	Simple and Safe Prescription of Parenteral Nutrition		
17:45 W Al-Yafi	Con	17:45 E Althunayan	Induced hypothermia for brain protection after cardiac ar	18:30 Closure			
18:00	Questions	18:00 K Shukri	Induced hypothermia protocols				
18:10 Closure		18:15 E Jimenez	Induced hypothermia				
		18:30	Questions				
		Closure					
Thursday 29th April, 2010							
7:30	Track A		Track B		Track C		Track D
	Registration and Breakfast		Registration and Breakfast		Registration and Breakfast		Registration and Breakfast
Plenary session							
8:00 A Alaamery	Human errors in the ICU						
8:25 M Hijazi	How safe are our patients in the ICU						
8:50	Discussion						
Program	Toxicology		Patient Safety in the ICU		Sleep Disorder and Agitation in the ICU		Ethics in PICU
9:00 M Alhelail	Snake envenomation in Saudi Arabia	K Shukri	Safe ICU program	MG Jamil	The sleep-friendly ICU	A Alayed	End of life decision in Saudi pediatric critical care
9:20	TBA	A Alaamery	Improvement science: a practical approach	H Qutub	Noise in the ICU	M Al-Asna	When to stop CPR
9:40 M Alhelail	Safety and efficacy of IV versus oral N-Acetylcystine for acetaminophen toxicity		TBA		TBA	H Abuhassan	Risk factor after cardiopulmonary bypass for long stay
10:00	Discussion		TBA		TBA	M Pollack	Parent's perspective on physician-parent communication near death
10:20 Coffee Break	Update on Sepsis		Discussion		TBA		Discussion
10:40	TBA	Coffee Break	Year-in-Review		Discussion	Coffee Break	Update on renal failure and management in PICU
11:00 G Abi-Saad	Genetics of sepsis	S Al-Hosaini	Year in review: Sedation	Coffee Break	Ethics and End of Life Issues	N Haider	Abdominal compartment syndrome
11:20 K Reinhart	Role of selenium and antioxidants in sepsis	F Hameed	Year in review: VTE	E Al-Thomali	The top ten issues in medical ethics	A Daylami	Acute renal failure
11:40 G Abi-Saad	Application of infection bundles: Lebanon experience	M Baldisseri	Year in review: Brain injury	I Qushmaq	Ethics in Saudi Arabia	H Abuhassan	Renal replacement therapy
12:00 Joannee-Boyau	Hemofiltration in sepsis	S Al-Qahtani	Year in review: CCRT	S Baharoon	Advance directive in the ICU in the Arabic world	L Abdulsamad	Hypertensive crisis
12:20	Discussion		Discussion		Discussion		Discussion
12:40 Lunch and Prayer		Lunch and Prayer		Lunch and Prayer		Lunch and Prayer	
11:30 Sponsored workshops (Please refer to workshops program for further details)							
Plenary session							
13:00 E Jimenez	Telepresence in ICU: new age of collaboration						
13:25 C Gomersall	CFR Consent for Resuscitation not DNR						
13:50							
Program	Renal Failure in the ICU and Renal Replacement Therapy		Research Methodology		Critical Care Training		Quality Control -II-
14:00 M Aldouahji	New biomarkers in Acute Kidney Injury AKI	C Gomersall	Collaboration in ICU research and education	H Furaihi	Challenges and expectations of critical care training in Saudi Arabia	M Pollack	Acute scoring system for PICU
14:20 S Baharoon	Acute renal failure and MODS	Y Arabi	Study design	S Abuznada	Nursing education in Saudi Arabia	M Temsah	Hightech
14:40 C Gomersall	Prescribing antibiotics in patients receiving CRRT and choosing which	H Al-Dorzi	Writing manuscript	H Qutub	New trends in critical care training	M Naeem	The future era and anticipated organization and challenges in CCM
15:00	Discussion	A Alshimemeri	Ethics in research	Y Arabi	Critical care training: residency vs fellowship	M Pollack	Research in PICU
15:20 Coffee Break	Information technology in the ICU		Discussion	S Abuznada	Challenges facing Saudi nurses		Discussion
15:40 R Shahpori	Information management framework: a model for clinical department	Coffee Break	Pharmacology in ICU		Discussion	Coffee Break	Hematology/Oncology Diseases in PICU
16:00 H Al-Dorzi	Computerized Physician Order Entry CPOE	A Cherfan	Acute decompensated heart failure management: current and novel	Coffee Break	Critis and Disaster Management	H Alotaibi	Management of severe sickle cell disease
16:20 MG Jamil	Information technology in the ICU	I Sanouri	Steroids in ICU	E Jimenez	ICU Micocosm within disaster medical response	H Alaleem	TRALI and blood transfusion
16:40 R Shahpori	Information technology, an enabler for quality management	A Cherfan	Pharmacodynamic and pharmacokinetics of drugs in the critically ill	A Alshimemeri	Critical care response to disaster in Saudi Arabia	M Azzam	Oncological emergencies in PICU
17:00 MG Jamil	Telemedicine		TBA	A Aljabbary	Crisis management planning and how to determine if your unit is ready	Y Gazal	Thromboembolism in PICU
17:20	Discussion		Discussion		Discussion		Discussion
17:30 Awards distribution to winners for oral presentations and posters							
18:00 Adjournment		Adjournment		Adjournment		Adjournment	

See you in SCCS 2011-Riyadh on 17-19 April, 2011
Preconference courses on 15 and 16 April, 2011
